On April 9, 2019, the Independent Order of Foresters, the ultimate parent company of Foresters Investment Management Company, Inc. (“FIMCO”), which is the investment adviser to the separate series of the trusts listed above (the “Funds”), Foresters Financial Services, Inc. (“FFS”), which is the Funds’ distributor, and Foresters Investors Services, Inc. (“FIS”), which is the Funds’ transfer agent, announced that it has entered into the two definitive purchase agreements described below that, once completed, will result in the sale of its U.S. North American Asset Management businesses.

First, FIMCO has entered into an Asset Purchase Agreement with Macquarie Management Holdings, Inc. (“Macquarie”) whereby Macquarie, a global investment management firm headquartered in Philadelphia, Pennsylvania, will purchase FIMCO’s assets related to the mutual fund management business, including the Funds (the “Transaction”). The Transaction is not expected to result in any material changes to the Funds’ investment objectives and principal investment strategies. However, upon the completion of the Transaction, Macquarie expects that each Fund will be reorganized into a substantially similar fund that is managed by Delaware Management Company, a subsidiary of Macquarie (the “Reorganizations”). The Transaction is expected to be completed during the fourth calendar quarter of 2019, pending the satisfaction of certain closing conditions and approvals, including approvals of the Reorganizations by the Funds’ Board of Trustees and Fund shareholders at a special shareholder meeting.

Second, FFS and Foresters Advisory Services, LLC (“FAS”) has entered into an Asset Purchase Agreement with Cetera Financial Group, Inc. (“Cetera”), a U.S.-based wealth management firm headquartered in Denver, Colorado, whereby Cetera will purchase FFS’ retail brokerage business and FAS’ retail advisory business. This transaction is expected to be completed in the second calendar quarter of 2019.

No shareholder action is necessary at this time. More detailed information about the Reorganizations will be provided in a forthcoming proxy statement. When you receive your proxy statement, please review it carefully and cast your vote. This Supplement is not a proxy and is not soliciting any proxy, which can only be done by means of a proxy statement.

PLEASE RETAIN THIS SUPPLEMENT FOR YOUR FUTURE REFERENCE.

Supplemented as of April 1, 2019

Before you invest, you may want to review the Fund's prospectus, which contains more information about the Fund and its risks. You can find this and other information about the Fund, including the statement of additional information ("SAI") and most recent reports to shareholders, at www.firstinvestorsfunds.com/prospectuses. You can also get this information at no cost by calling 1 (800)423-4026 or by e-mailing investorservices@foresters.com. The Fund's prospectus and SAI, dated January 31, 2019, as each may be amended or supplemented, and the financial statements in the annual report to shareholders, dated September 30, 2018, are incorporated herein by reference.

Investment Objective: The Fund seeks long-term growth of capital and current income.

Fees and Expenses of the Fund: This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund. You may qualify for sales charge discounts if you invest, or agree to invest in the future, at least \$50,000 in certain classes of shares of certain First Investors Funds. More information about these and other discounts is available from your financial representative and in "Are sales charge discounts and waivers available" on page 199 of the Fund's prospectus and in "Additional Information About Sales Charge Discounts and Waivers" on page II-60 of the Fund's SAI. You may be required to pay a commission to your financial intermediary for Advisor Class and Institutional Class shares purchased through them. Such commissions are not reflected in the tables or the Example below.

<i>Shareholder Fees (fees paid directly from your investment)</i>	Class A	Class B	Advisor Class	Institutional Class
Maximum sales charge (load) imposed on purchases (as a percentage of offering price)	5.75%	None	None	None
Maximum deferred sales charge (load) (as a percentage of the lower of purchase price or redemption price)	1.00% ¹	4.00%	None	None
<i>Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the total value of your investment)</i>	Class A	Class B	Advisor Class	Institutional Class
Management Fees	0.68%	0.68%	0.68%	0.68%
Distribution and Service (12b-1) Fees ²	0.25%	1.00%	None	None
Other Expenses	0.17%	0.26%	0.12%	0.07%
Total Annual Fund Operating Expenses	1.10%	1.94%	0.80%	0.75%

1. A contingent deferred sales charge of 1% will be assessed on certain redemptions of Class A shares that are purchased without a sales charge, as described further in the "What are the sales charges?" section of the prospectus.

2. The expense information in the table has been restated to reflect a decrease in the 12b-1 fees for Class A shares effective as of April 1, 2019.

Example

The Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods and reflects conversion of Class B to Class A after eight years. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

	1 Year	3 Years	5 Years	10 Years
Class A Shares	\$681	\$905	\$1,146	\$1,838
Class B Shares	\$597	\$909	\$1,247	\$2,046
Advisor Class Shares	\$82	\$255	\$444	\$990
Institutional Class Shares	\$77	\$240	\$417	\$930

You would pay the following expenses on Class B shares if you did not redeem your shares:

	1 Year	3 Years	5 Years	10 Years
Class B Shares	\$197	\$609	\$1,047	\$2,046

Portfolio Turnover: The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the Example, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 34% of the average value of its portfolio.

Principal Investment Strategies: The Fund primarily invests in common stocks that offer the potential for capital growth, current income or both. The Fund primarily invests in common stocks of large-size companies. The Fund may also invest in mid- and small-size companies. Some but not all of the companies the Fund invests in may regularly pay dividends.

The Fund may write (sell) covered call options on the securities it holds to generate income. A call option gives the purchaser of the option the right to buy, and the writer, in this case, the Fund, the obligation to sell, the underlying security at the exercise price at any time prior to the expiration of the contract, regardless of the market price of the underlying security during the option period.

The Fund generally uses a "bottom-up" approach to selecting investments. This means that the Fund generally identifies potential investments through fundamental research and analysis and thereafter focuses on other issues, such as economic trends, interest rates, industry diversification and market capitalization. In deciding whether to buy or sell securities, the Fund considers, among other things, the issuer's financial strength, management, earnings growth or potential earnings growth and the issuer's valuation relative to its fundamentals and peers.

The Fund may sell a security if it becomes fully valued, is no longer attractively valued, its fundamentals have deteriorated or alternative investments become more attractive.

Principal Risks: You can lose money by investing in the Fund. There is no guarantee that the Fund will meet its investment objective. Here are the principal risks of investing in the Fund:

Call Options Risk. Writing call options involves risks, such as potential losses if equity markets or an individual equity security do not move as expected and the potential for greater losses than if these techniques had not been used. By writing covered call options, the Fund will give up the opportunity to benefit from potential increases in the value of a Fund asset above the exercise price, but will bear the risk of declines in the value of the asset. Writing call options may expose the Fund to significant additional costs. Derivatives may be difficult to sell, unwind or value.

Dividend Risk. At times, the Fund may not be able to identify attractive dividend-paying stocks. The income received by the Fund will also fluctuate due to the amount of dividends that companies elect to pay, which could adversely affect the Fund's ability to pay dividends and its share price.

Market Risk. Stock prices may decline over short or even extended periods due to general economic and market conditions, adverse political or regulatory developments or interest rate fluctuations. The Fund's investments in potential growth opportunities may increase the potential volatility of its share price. Adverse market events may lead to increased redemptions, which could cause the Fund to experience a loss or difficulty in selling securities to meet redemptions.

Mid-Size and Small-Size Company Risk. The market risk associated with stocks of mid- and small-size companies is generally greater than that associated with stocks of larger, more established companies because stocks of mid- and small-size companies tend to experience sharper price fluctuations. At times, it may be difficult to sell mid-to-small-size company stocks at reasonable prices.

Security Selection Risk. Securities selected by the portfolio manager may perform differently than the overall market or may not meet expectations.

Undervalued Securities Risk. The Fund seeks to invest in securities that the Fund's adviser believes are undervalued and that it believes will rise in value due to anticipated events or changes in investor perceptions. If these developments do not occur, the market price of these securities may not rise as expected or may fall.

An investment in the Fund is not a bank deposit and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

Performance: The following bar chart and table provide some indication of the risks of investing in the Fund. The bar chart shows changes in the

Fund's performance from year to year for Class A shares. The table shows how the Fund's average annual returns for 1, 5, and 10 years compare to those of a broad measure of market performance. The Fund's past performance (before and after taxes) is not necessarily an indication of how the Fund will perform in the future. Updated performance information is available by visiting www.firstinvestorsfunds.com or by calling 1 (800) 423-4026.

Sales charges are not reflected in the bar chart, and if those charges were included, returns would be less than those shown.

Total Annual Returns For Calendar Years Ended December 31

During the periods shown, the highest quarterly return was 16.90% (for the quarter ended June 30, 2009) and the lowest quarterly return was -17.55% (for the quarter ended September 30, 2011).

Average Annual Total Returns For Periods Ended December 31, 2018

	1 Year	5 Years	10 Years	Life of Class (If less than 10 yrs)
Class A Shares				
(Return Before Taxes)	-15.58%	2.44%	10.39%	--
(Return After Taxes on Distributions)	-19.68%	0.44%	9.19%	--
(Return After Taxes on Distributions and Sale of Fund Shares)	-6.31%	1.10%	8.17%	--
Class B Shares (Return Before Taxes)	-13.95%	2.59%	10.27%	--
Advisor Class Shares (Return Before Taxes) (Inception Date: 4/1/13)	-10.12%	4.08%	--	7.37%
Institutional Class Shares (Return Before Taxes) (Inception Date: 4/1/13)	-10.10%	4.08%	--	7.41%
MSCI USA Value Index (reflects no deductions for fees, expenses or taxes)*	-7.18%	6.62%	11.13%	8.82%
Russell 1000 Value Index (reflects no deduction for fees, expenses or taxes)	-8.27%	5.95%	11.18%	8.22%
S&P 500 Index (reflects no deduction for fees, expenses or taxes)	-4.38%	8.49%	13.12%	10.75%

* The Fund changed its primary broad-based securities index to the MSCI USA Value Index as of January 31, 2019. The Fund had previously changed its primary broad-based securities index to the Russell 1000 Value Index on March 14, 2018. In each case the Fund elected to use the new index because it more closely reflected the Fund's investment strategies.

The after-tax returns are shown only for Class A shares and are calculated using the highest individual federal marginal income tax rates, do not reflect the impact of state and local taxes and will vary for other share classes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown. After-tax returns are not relevant to investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts. The return after taxes on distributions and sale of Fund shares may exceed the return before taxes due to an assumed tax benefit from any losses on a sale of Fund shares at the end of the measurement period.

Investment Adviser: Foresters Investment Management Company, Inc.

Portfolio Manager: The Fund is managed primarily by Sean Reidy, Director of Equities, who has served as Portfolio Manager of the Fund since 2018. Evan Snyder has served as Assistant Portfolio Manager of the Fund since 2015.

Purchase and Sale of Fund Shares: Class B shares of the Funds are closed to new accounts and new investments (excluding reinvestment of dividends, exchanges and other limited transactions). You may purchase or redeem shares of the Fund on any business day by: contacting your financial intermediary in accordance with its policies; writing to the Fund's transfer agent at: Foresters Investor Services, Inc., Raritan Plaza I, Edison, NJ 08837; or calling the Fund's transfer agent at 1(800)423-4026. The minimum initial purchase for Class A shares, Class B shares and Advisor Class shares is \$1,000. The minimum initial purchase for Institutional Class shares is \$2,000,000. The minimum initial purchase is reduced for certain types of accounts and also for accounts that are eligible to be opened under a systematic investment plan. Subsequent investments can be made in any U.S. dollar amount.

Tax Information: The Fund's distributions are generally taxable, and will be taxed to you as ordinary income or long-term capital gains, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or individual retirement account, in which case the withdrawal of your investment from a tax-deferred arrangement may be taxable.

Payments to Broker-Dealers and Other Financial Intermediaries: The Fund is primarily sold to retail investors through its principal underwriter, Foresters Financial Services, Inc. ("FFS"), which is an affiliate of the Fund's adviser, and both are subsidiaries of the same holding company. FFS representatives receive compensation for selling the Funds. The Fund also may be sold through unaffiliated broker-dealers and other financial intermediaries, that receive compensation for selling First Investors Funds. These payments may create a conflict of interest by influencing representatives, broker-dealers or other financial intermediaries to recommend First Investors Funds over other funds. For more information ask your representative or your financial intermediary, see the Fund's SAI or visit Foresters Financial's or your financial intermediary's website.
